👉 Poster Guidelines 👈

There will be two poster sessions:

- **Young Investigator's Poster session**
April 21, 2009, 6-9 PM
- **General Poster Session**
April 22, 2009, 2-4:30 PM

The style of poster-board that will be used at the meeting is shown here – it is tall, but narrow (1.2 m wide). We recommend that you make posters 48" wide x 48" tall as shown. Posters that are wider than 1.2 m (48") will not fit.

Posters should be easily readable by viewers who are three feet away. The message should be clear and understandable even without oral explanation. Organize your work into sections that flow down one column and then the next, or across the rows. Keep it simple, don't overcrowd, and focus on the major points. Use color to highlight the poster's organization and structure.

Pushpins will be provided for you at the meeting.
